All of the EIR documents can be found in the following folder in both pdf and word format:

A majority of the appendices are technical studies that will be reviewed for each project.

Appendices that need to be reviewed separately include:

Appendix 2.1-3- Glare Study- Larry Hofreiter (Rob and I will look at this as well, but it may help with the visual)

Appendix 2.12-1- Emergency Services- James Pine

Appendix 2.12-2- Groundwater- Jim Bennett

All of the EIR specialist review tasks are due on 5/11/13 which is a Saturday , so please get your comments Rob Hingtgen and I by Friday **5/10/13**. If you are not going to be able to meet this deadline or are going to need more than the allotted hours, please let me know.

Please ensure that all time spent on your review of these technical studies is charged to the Soitec EIR account (**PDS2012-3910-12-00005**). All review for the technical studies for Rugged Solar and Tierra Del Sol Solar should be charged separately to those accounts.

Please let me know if you have any questions or did not receive all of the necessary documents to complete your review.

Thank you!!

Ashley
